Re: CLE-CR 106-4.18 (SFN 1359339) Roundbottom Road Bridge Replacement

Dear Mr. Manger:

Your application for use of LBR funds to replace the above referenced bridge is approved for FY 2021. Under the CEAO's bridge funding policy this project qualified for selection on the basis that each county is guaranteed at least one bridge if they have no bridges scheduled for the three years prior to the current funding year. Since it is being approved under the "4-year" criteria, it will not be subject to re-ranking against the new LBR applications next year. The project has an estimated FY 2021 construction cost of \$2,898,000 including construction engineering. The projected funding breakdown for the project is as follows:

Construction Contract Estimate (inflated to FY 21):	\$2,708,400
7% Construction Engineering Estimate (inflated to FY 21):	\$189,600
80% LBR Funding:	\$2,318,400
20% Local Match:	\$579,600
Federal Max (at 80%):	\$2,630,240

By copy of this letter ODOT will be formally advised of this LBR funding approval. This should permit the programming to be completed upon your submittal of the required package to the ODOT District. Please advise CEAO of the PID number and milestone dates once the programming has been completed and the project schedule has been established. Please also coordinate with your MPO to ensure that this project is included in their TIP as appropriate. If you have any questions or need any further information, please feel free to contact this office.

Sincerely,

Michele Risko
CSTP/LBR Program Manager
